

What talents or interests do I have? Could I learn something new? How do I play a tuned musical instrument? What can my body do? How does it move? What can it create? Can I create sounds or marks?

What happens when we count amounts larger than 9? Are there any patterns? How can we add and subtract? Let's explore numbers and shapes.

Let's find out about our bodies.  
How do we use our bodies to find out about or explore the world around us? Indoors and out!

Learning to start my letters in the correct place will help me to share my ideas clearly

## The Wonder Of Me!

What is life in a city like? Is it like where I live? What does a city look like? Are there different cities around the world? How could I build a city or a farm? Do children like me live there?

If we read our class book "The Extraordinary Gardener" what will we find out? What is the story about? Are there other books we could read that are similar? My phonics will help me to find them.

What makes us special? How are we unique? What are our feelings for? How do we show them? How do they feel inside? When do I feel a different emotion? How can this help me and my friends?
