

Value- Responsibility

Science:

Living Things and their Habitats

This term we will be exploring different places that animals live, but to start with we need to think about what living actually means by sorting things into living and non-living. We will be spending a lot of time outside visiting habitats, thinking about why animals have chosen a particular habitat and what makes it suitable. Also thinking about what they eat and how this makes a food chain. There are some habitats though that we will not be able to visit...it is a long way to the North pole and far too hot in the desert!

We will be reading about a meerkat who looks for a new home and about a polar bear that tries everything to get back to where he belongs.

Summer 2024 Year 1/2

English

T11: Use apostrophes for contractions.
T12: Use apostrophes for possession.
T13: Use the progressive past and present tenses.

Genre-

Su1: Narrative - familiar setting

Su2: Poetry- seaside

Book of the term

Summer 1 The Night Pirates - Peter Harris

Maths

Mastering number

Maths Fluency session

Year 1s Know all addition and subtraction facts for all numbers between 0 and 10.

Year 2s Know all addition and subtraction facts for multiples of 10 to 100.

Know the number of pennies in a £

White Rose Maths

Number: Multiplication and Division

Number: Fractions

Geometry: Position and Direction

Number: Place Value (within 100)

Measurement: Time

Physical Education (Wednesday and Friday)

Dance seaside , Games

Athletic (double unit) Throwing, jumping and

Topic

Geography:

Seas and coasts

History

What were seaside holidays like in the past?

Design technology and Computing

Puppets

Music

Singing rounds

Learning seaside songs and chants

Religious Education

1.2 Who do Christians say made the world?

1.9 How should we care for others and for the world and why does it matter?

PHCE and Citizenship
