

School Value: Perseverance

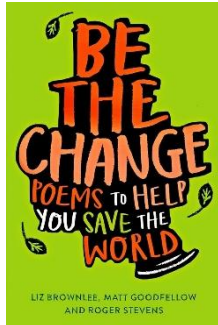

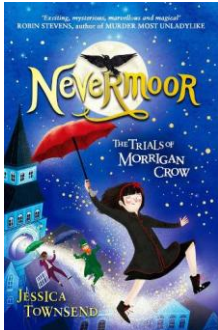

Science

This term we will be looking at staying healthy and how our bodies can keep healthy. This will include looking at diet, exercise, the role of our heart and what we can do to help our body stay healthy.

In summer term 2, we will look at evolution and how adaptations have occurred.

English –

Our class novel will be Nevermoor in the summer term. We will also have opportunities to develop our reading comprehension skills with a range of texts and oracy using the book of poems: Be the Change. In writing, we will be creating a persuasive letter and a biography as well as a factual tour of the circulatory system.

PE –

PE will take place on Monday outside and on a Thursday with Prostars. We have our sports days during this term and with the weather improving, many opportunities for outdoor exploration.

Class: Oaks Summer Term 2025

The Kingdom of Benin (History)

We will be using our history skills to discover what happened in the Kingdom of Benin. We will be exploring the oral history and written history to compare and look at archeological evidence to enhance our understanding.

In **Geography**, we will be looking at natural resources of Britain and where in the world some of our most important resources are sourced.

French –

Exploring the French speaking world is our focus of the summer term looking at where in the world uses French and then planning a holiday to France.

Curriculum Drivers:

Aspiration
Contribution
Exploration

RE- Taught by Mrs Rylatt

Why do Hindus want to be good?

How does faith help people when life gets hard?

Maths –

Our focus is on ratio and algebra to start the summer term before we look at shape and measurement to end the school year.

ART – In art, we are looking set design.

DT – we will be exploring bread and creating our own dough.

Also this term, we will have a focus on performing for our end of year production which includes drama, music and dancing.
